 5
      * Filename: SHIFT.v
 6
      * Date:
                   3/21/2019
 7
      * Version:
                   1.0
 8
9
      * Notes:
                   Module implements shift right arithmetic, shift right logical and
10
                   shift left logical. Module shifts T input by the amount specified
11
                   by the shamt input.
12
      ************************
